DMK 2... - DMK 50

THE SIMPLIEST MULTIMETERS TO VIEW 47 ELECTRICAL PARAMETERS.

A valid and cost-effective alternative to single analog instruments.

DMK 2...

DMK 50

- Measures of voltage, current, power, power factor and frequency values.
- Logging of minimum and maximum values.
- Total and partial hour counter.

TECHNICAL CHARACTERISTICS

Auxiliary supply range	154-288VAC (DMK 20 and DMK 50) 9-32VDC (DMK 25 and DMK 26)
Voltage measuring range	60-830VAC L-L 30-480VAC L-N For LV use only
Frequency range	45-65Hz
Current measuring range	0.05-6A
Programmable CT ratio	1 - 2000
Measuring accuracy ①:	
Voltage-Current	0.5 class ±0.25% full scale ±1 digit
Frequency	±1 digit
Apparent power	±0.5% full scale ±1 digit
Active power	±1% full scale ±1 digit (cosφ 0.7-1)
Reactive power ②	±1% full scale ±1 digit (sinφ 0.7-1)
Operating ambient temperature	-20...+60°C
Degree of protection:	
DMK 2...	IP20 housing and terminals IP54 on front
DMK 50	IP20 housing and terminals IP41 on front

① Measuring conditions: temperature +23°C ±1digit; relative humidity 45% ±15%; voltage 0.2-1.2Ue; current 0.2-1.2Ie.

② Not available on DMK 26.

DMK 3... - DMK 40 - DMK 6...

THE MOST SOPHISTICATED MULTIMETERS TO VIEW 251 ELECTRICAL PARAMETERS.

Complete power analyzers. The ideal solution to monitor the quality and consumption of electric energy. Suitable for LV – MV – HV systems.

DMK 3... - DMK 40

DMK 6...

- Measures of voltage, current, power, power factor, displacement power factor and frequency values.
- Import-export energy meters.
- Logging of minimum, maximum and average values.
- Harmonic analysis on current and voltage values, 2° to 22° odd and even orders.
- Versions:
 - Basic with measure viewing only, DMK 30 - DMK 60
 - Viewing and 2 programmable outputs, DMK 31 – DMK 61
 - Viewing, 2 programmable outputs, opto-isolated RS485 serial port and optional Modbus® RTU / ASCII protocol software, DMK 32 – DMK 62
 - Basic with data-logger, DMK 40.

TECHNICAL CHARACTERISTICS

Auxiliary supply range	85 - 265VAC 93.5 - 300VDC
Voltage measuring range	20 - 830VAC L-L 10 - 480VAC L-N
Programmable VT ratio	1 - 5000
Frequency range	45 - 65Hz
Current measuring range	0.02 - 6A
Programmable CT ratio	1 - 2000
Measuring accuracy ①:	
Voltage, current, frequency, harmonic distortion	±1 digit
Apparent power	±0.15% full scale ±1 digit
Active power	±0.25% full scale ±1 digit (cosφ 0.7-1)
Reactive power	±0.25% full scale ±1 digit (sinφ 0.7-1)
Energy	Class 1 (IEC/EN61036 and 61268)
Operating ambient temperature	-20...+60°C
Degree of protection:	
DMK 3... - DMK 40	IP20 housing and terminals IP54 on front
DMK 6...	IP20 housing and terminals IP41 on front

① Measuring conditions: temperature +23°C ±1digit; relative humidity <60%; voltage 0.2-1.2Ue; current 0.2-1.2Ie.

Refer to DMK 3... for cutout.

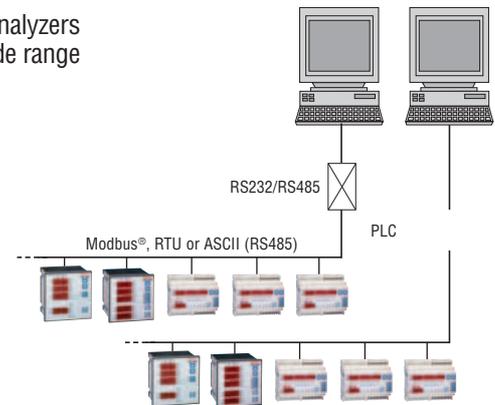

MODERN SUPERVISION OF ELECTRICAL PARAMETERS

Distorted waveform conditions, such as very disturbed electric lines having voltage and currents with high harmonic content and variable frequency, do not influence the high accuracy DMK multimeter readouts because of the latest state-of-the-art microprocessor technology.

A DMK... FOR EVERY NEED

- All models are suitable for single, two, three-phase connection, with or without neutral
- TRMS measurements
- The DMK 2... and DMK 50 models, suitable for LV systems, offer a cost-effective solution even in replacement of traditional analog instruments
- The DMK 25 and DMK 26 types have technical and operation features specific for use with standby generating sets
- The DMK 3..., DMK 40 and DMK 6... models are complete power analyzers and suitable for medium and high - voltage systems owing to the wide range of VT programming ratio
- DMK 31 - DMK 32 and DMK 61 - DMK 62 offer totally configurable digital outputs providing protection and automation functions. In addition to pulsing respect with energy values, minimum and maximum thresholds can be programmed with adjustable tripping time as well as relay output status and relative resetting
- DMK 32, DMK 40 and DMK 62 types have an opto-isolated RS485 port and with the Modbus[®] RTU / ACSII protocol software to warrant interfacing with the most common monitoring and automation systems. The Modbus[®] RTU / ASCII protocols consent to direct dialog also via modem, both line or GSM version
- DMK 40 has 2 Mb of internal memory and data-acquisition supervision software.

DMK SW REMOTE CONTROL AND SUPERVISION SOFTWARE FOR DMK 32 AND DMK 62

The remote control software, DMK SW, can supervise a maximum of 64 DMK 32 and/or DMK 62 digital multimeters connected to a single RS485 bus.

The DMK SW is divided into modules, which warrant simple use:

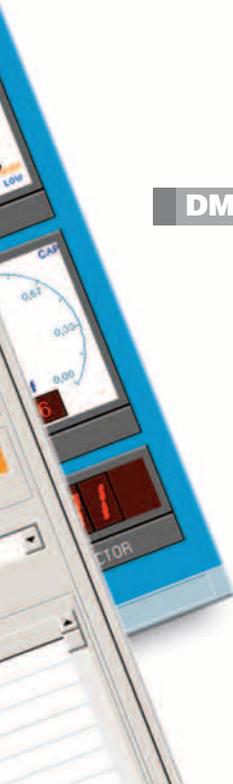

- Synoptic main page which includes the most important data inbound from the various DMK
- Detailed page with data as regards to one single DMK
- Data storage which permits to log the required measures
- Event-alarm logging which registers the alarms arriving from equipment along with software elaboration data
- Trend graphs to verify electrical parameters
- Harmonic content analysis with bar graphs
- Energy meters to obtain periodical readings for consumption monitoring.

DMK SW10 DATA ACQUISITION SUPERVISION SOFTWARE FOR DMK 40

The DMK SW10 includes the data acquisition and viewing software along with the remote control and supervision software, DMK SW.

The data-logger software consents to:

- Configure the multimeter parameters, both for the data-logger and for the installation set-up, such as CT-VT ratios, etc
- View and print data recorded in the multimeter storage memory, in table or graph/trend format; the data-logger cannot be configured nor consulted from the multimeter front
- Data download in ACCESS, EXCEL or TEXT format
- View all the actual electrical measures on a virtual multimeter panel
- Set the real time clock with daylight saving time management
- Directly connect to the multimeters or via modem.

2-side cable entry limit switches
KC... and KN... types

Foot switches
KG... and KR... types

Modular protection relays
PM... series

Modular level control relays
LVM... series

AC motor drives, VFS11... types

Automatic power factor controllers
DCR... series

Planet-SWITCH

- Motor protection circuit breakers
- Switch disconnectors
- Contactors
- Motor protection relays
- Electromechanical starters
- Push-buttons and selectors
- Limit and foot switches
- Rotary cam switches

Planet-DIN

- Modular contactors
- Time relays
- Protection relays
- Level control relays
- Earth leakage relays

Planet-LOGIC

- Digital metering instruments and current transformers
- Soft starters
- AC motor drives
- Automatic power factor controllers
- Automatic battery chargers
- Automatic transfer switches

The products described in this documentation are subject to be revised or improved at any moment. Catalogue descriptions and details, such as technical and operational data, drawings, diagrams and instructions, etc., do not have any contractual value. In addition, products should be installed and used by qualified personnel and in compliance with the regulations in force for electrical systems in order to avoid damages and safety hazards.
